

No matter what they say in the news, Russia is a big market and even bigger opportunity for young and ambitious tech startups worldwide. The on-going modernization of key industries gives a warm welcome to international expertise and teams.

But moving into another country, another business culture has never been easy. For those, who would like to test the new grounds and grow into the Russian innovative business environment without spending a fortune, Technopark Skolkovo presents a comprehensive starter soft-landing package.

ТЕХНОПАРК
TECHNOPARK

Skolkovo Innovation Centre

With about 800 resident companies and startups, \$2,9 billion budget, world-class scientists, Skolkovo Innovation Centre is to become Russia's largest innovation project and an international global technology hub.

16 km away from Moscow downtown

Technopark Skolkovo

Provides office space and support services to innovative Russian companies.

Upon completion it will occupy 145,000 square meters and is a part of the larger Skolkovo Innovation Center, one of Russia's leading hubs for 21st century high-tech industry.

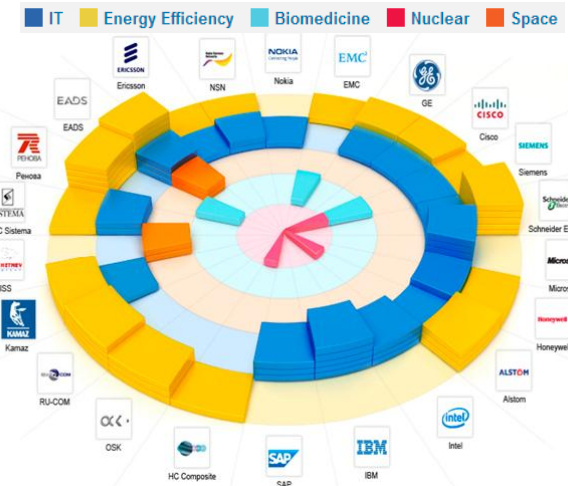

Today Technopark is located on the area of 6 000 sq.m. in 2 buildings – Ural and Hypercube.

Go Skolkovo

Starter package for international tech startups, eager and restless teams from around the world

Corporate Research Park Map of Competences

Color designation:

Circles indicating the clusters are in descending order of total number of projects: outer ring is the cluster with the largest number of projects, internal ring is the cluster with the lowest number of projects.

Total height of the columns corresponds to the number of projects of the particular company in the appropriate cluster.
